In light of the fact that the Historically Underutilized Business (HUB) pilot program is due to sunset on September 30, the Court should anticipate voting this item on 9/18. Therefore, if commissioners have suggested changes or additions, please post them to the Bulletin Board in advance of 9/18 Voting Session so that we can implement the new policy in advance of the sunset.

This year, the push to review and update was in part due to the Historically Underutilized Business (HUB) pilot program, which is due to sunset on September 30.
